Nemacki Bez Muke. Assimil-Nemacki-Bez-Muke-1974-Roemer-Maria-Hilde-Schneider-27.pdf. The Assimil Nemacki Bez Muke (1974) is a thought-provoking documentary about the continuing clash of our post-utopian view of nature from man and the cost of not replacing the writer's prime: "To make the world whole again through our artistic products is humanity's final hope, the one work with which we must now be engaged". It is about man's attempts to make the world a humane place; a world of which man is in control, where all the works of art of all ages, of all societies, of all times and spaces of origin are brought together and integrated, and comprehended in their common goal. However, our post-utopian view of man's ability to create a world which is perfect and utopic cannot be realized. For if the world is perfect and utopic, the human being which is part of it is a being without a history, which owes its totality to the world and to its events only. This means that mankind ceases to be part of the universe and that he is a being isolated in history. At the same time he is also independent, without beginning. He creates the world but cannot be part of it. On the other hand, man as a being which has a history cannot be a perfect being, he must kill nature, for to preserve his perfect world he must destroy nature, for which all his art and power is exploited. This is the fundamental dilemma of the Assimil Nemacki Bez Muke, a text which underlines the meaning of the adventure of the life in the universe as a whole. It is a text which, in its emphatic concern with the philosophical significance of the human condition, is a landmark in the history of philosophy. A text which sets out to measure and evaluate the methodological and political usefulness of f678ea9f9e
